

CSEE received two questions in respect to the RFP, as well as responses from several vendors who bid on the previously issued RFP that they will be bidding on the reissued RFP.

CSEE welcomes responsive, competitive proposals, and would appreciate proposals from all interested vendors.

The questions received are:

1) Can CSEE confirm that this RFP is for a Hosted VOIP service?

This RFP is for a Hosted VOIP service.

2) Is the phone system expansion information on page 2 or 5 of the RFP correct?

On page 2 of the RFP, quotes are requested for 20 administrator phones and 40 teacher phones initially, and an additional 20 teacher phones and 8 administrator phones when a new CSEE annex opens. On page 5 of the RFP, quotes for an additional 60 teacher phones are requested.

Prospective proposers should provide quotes for the teacher and administrator phone sets specified on page 2, and provide quotes for the lease or purchase of up to an additional 10 administrative phones and an additional 30 teacher phones while the contract is in effect.
